Float Information and Guidance

COSTUMES:

You can put together a costume quite easily without spending lots of money; you might already own clothing that you can use for your outfit. If not try visiting Charity Shops to find bits and pieces.

DECORATIONS:

This is where you can get creative, work within a budget and try not to go over. Look at what art materials you have around you or what you can make with things you may own.

Delve into your garage or attic; old sheets, cardboard, Christmas Decorations or clothes can all be used. If you have any emulsion paint then why not use that? You usually only need 1 coat, and it saves you spending lots of money on paint.

Just remember to think about safety, keep your structure strong, and attach your decorations using staple guns, cable ties or glue. Fine detail won't be picked up, so make things big, bright and eye catching!

LIGHTING:

Rope lights require little power, easy to pick up from hardware stores.

Christmas tree lights the cheapest way to light your float.

Spot lights - Great for single features.

Another cheap way to brighten up your float is using shiny materials such as foil and glitter.

Make sure whatever you use it's going to be able to cope with the conditions think wind, rain, Sun light- will people be even able to pick up on the lights you're using?

PEOPLE:

It's up to you how many people you have on your float, but remember you'll need at least two people to walk alongside your float collecting money for the Carnival. All ages can take part and have fun!

POWER:

You can use the following:

Generator: ideal if you want to run several sources of light or sound.

Car Battery: This is a good method if you want to attach 12v lighting to your float.

SAFETY:

Top tips to remember:

Make sure all your decorations are properly secure to your structure.

You shouldn't have any nails/screws sticking out.

Make sure everyone riding on the float is going to stay safe.

Don't use any naked flames or fire

Check that all your electrics will be protected from rain etc.

Make sure your generators are positioned away from any flammable materials

HAVE FUN!

And the most important thing of all is to have FUN!

Swanage Regatta & Carnival is a fantastic event for all the community.

If you've never taken part in the procession before see if your friends or a local club might be interested in getting involved and help local causes and charities.
